Sewing Instructions

All seams allowances are ¼"
Wherever possible press seam allowances under the darker fabric.

1. Follow the cutting list and gather the segments needed for each block together and keep them separately. Check the fabrics against the photograph on the cover.
2. Courthouse Step Blocks. Sew the 'steps' (segments) on in pairs to opposite sides of the centre square one round at a time. Complete the 22 pieced blocks.

TIPS: Cutting the segments accurately and then sewing a seam which is a tiny bit under an exact ¼" will help to create blocks which lay flat and fit together beautifully. The reason for recommending a seam allowance a fraction/thread under the exact ¼" line is to make allowances for the fabric being folded over and for the thickness of the thread.

Press your seams after each segment is attached. Never sew across a seam that hasn't been pressed.

Layout of blocks

Assembling the Quilt

1. When you have sewn all 22 blocks and pressed them carefully, lay them out as shown in the diagram on the left.
2. Sew the blocks together in groups. For instance: sew Blocks #9, #10 and #11 together and then sew them to Block #1.
3. Sew the groups together. Press well.

Quilting

1. Lay out the backing fabric on a flat smooth surface with the wrong side facing up. Spread out the batting on top, smoothing the wrinkles and bumps.
2. Place the quilt top over the batting.
3. Quilt using your favourite method by hand or machine.
4. Trim back any excess backing and batting to the edge of your quilt top.
5. Sew the binding strips into one long strip using mitred seams. Fold in half along the length of the strip with wrong sides together. Press.
6. Sew the binding to the top of the quilt mitring the corners.
7. Turn the binding over to the back and hand stitch in place.

Congratulations. You have made a very special Scandinavian table runner.
