Batting
Cut batting that measures 48-1/2" x 59".
**Whipstitching Straight Edges**

After you have a number of pieces basted you can start whipping them together. With a matching thread, bury the knot between the paper piece and the seam allowance. If sewing a dark and light colored piece together, match the thread to the darker color.

Take two anchoring stitches when starting and whip stitch until you reach the next corner. Do not sew through the paper when joining the pieces. Your needle should slide next to the paper between the edge of the paper piece and the fabric, just catching the edge of the fabric.

We recommend about 6-10 stitches per inch. When you reach the “corner”, secure it by taking two stitches together. If your whip stitches are showing on the right side of the fabric, tighten the stitch slightly and catch less fabric. The stitching should be taut and even, but not pulling. Continue whipping pieces together to finish the block.

**Adding Borders**

**Cutting the Borders**

Once your quilt top is squared off, measure the long side of your quilt. Add 4” to this number to get the total for your long borders. Cut two borders this size. Match the middles of the borders with the middle of the quilt top and pin borders in place. Sew them to your quilt top (Fig. 1). Repeat the process for the short borders. (Fig. 2). Once both sets of borders are attached, square off the corners and trim away any excess bulk from behind. (Fig. 3).
Applique Instructions

How to Center your Applique Work
Each flower needs to be centered on the background squares. To center your applique work, fold the background square in half diagonally and finger press the fold line. Now fold again crosswise and finger press the fold. Use these lightly folded lines as guidelines for centering your applique.

Assembly Instructions

1) Baste the fabric to the Paper Pieces according to the basic instructions. I like to baste “on the go” and whip at home in my easy chair.

2) Assemble flowers. One flower equals 1 center, 1st ring of 6 petals, 2nd ring of 12 petals. Use colors according to the variation you are making. See diagrams below.

Assembly Instructions Continued

3) Appliqué your completed flowers to the centers of the background squares. See Appliqué Instructions.

4) Remove Paper Pieces. After each flower has been appliquéd onto a background square, turn to the back side of each block and cut the background fabric 1/4” inside the appliqué stitching lines and remove it. (It is easy to do as the papers will keep you from cutting through the front fabric.) Pull the basting threads and remove the papers from the back side. These papers can be used again.

Top Assembly

1) Using the colors in your variation, make lattice sets. Sew a 1-1/4” sashing strip #1 to each side of a 2” sashing strip #2. Make seventeen.

2) Assemble flower rows by sewing the following together: One flower block to, one lattice section to, one flower block to, one lattice section to, one flower block. (See Fig. 1). Make four.

Fig. 1 - Make 4

3) Assemble the lattice rows by sewing the following together: One lattice section to, one 3-1/2” square to, one lattice section to, one 3-1/2” square to, one lattice section. (See Fig. 2). Make three.

Fig. 2 - Make 3

4) Sew flower rows and lattice rows together.

5) See Adding Borders for more information. Measure sides of quilt. Cut and sew two sashing border strips to this measurement. Measure top and bottom of quilt including the two new sides. Cut and sew two sashing strips to this measurement to the top and bottom of the quilt.

6) Repeat step 5 for the Inner and Outer Borders.

7) Layer quilt top, batting, and backing. Quilt as desired and bind.
